

Workshop programme

Measurement, Processing and Analysis of Neuroimaging and
Electrophysiological Data

11. – 12.11.2015

	Wednesday 11.11.2015	Thursday 12.11.2015
8:00		
8:15		
8:30	Registration of participants	Registration of participants
8:45		
9:00	Introduction and practical information	
9:15		
9:30	Morphometric methods	Diffusion imaging
9:45		
10:00		
10:15	Coffee break	Coffee break
10:30		
10:45		
11:00		
11:15	fMRI basics - principles, data preprocessing, statistical analysis	Basic and advanced EEG processing and analysis
11:30		
11:45		
12:00		
12:15		
12:30	Lunch	Lunch
12:45		
13:00		
13:15		
13:30		
13:45	Dealing with artifacts in fMRI	Simultaneous measurement of physiological signals and fMRI
14:00		
14:15		Coffee break
14:30	Coffee break	
14:45		
15:00		
15:15		
15:30	Functional and effective brain connectivity in fMRI	Practical part - measurement at EEG and MR laboratory
15:45		
16:00		
16:15		Possible issues during preparation of experiments, measurement, preprocessing or statistical analysis of the data
16:30		

Speakers

Morphometric methods

- Radek Mareček
- Nikoletta Szabó

Basic fMRI

- Michal Mikl (Principles, experiment and interpretation issues, resting state fMRI)
- Martin Lamoš (Data preprocessing)
- Martin Gajdoš (Statistical analysis)

Dealing with artefacts in fMRI

- Marek Bartoň (Physiological artefacts suppression in fMRI data with/without usage of physiological recordings)
- Michal Mikl (Mapping and suppression of movement artefacts in fMRI data)

Functional and effective brain connectivity in fMRI

- Martin Gajdoš (Dynamic Causal Modelling, Granger Causality)
- Marek Bartoň (Seed analysis, Psychophysiological Interactions)
- Tomáš Slavíček (Independent Component Analysis)
- Jan Fousek (Graph Theory)

Diffusion imaging

- Lubomír Vojtíšek
- Nikoletta Szabó

Basic and advanced EEG processing and analysis

- Martin Lamoš
- Petr Klimeš

Simultaneous measurement of physiological signals and fMRI

- Radek Mareček
- Martin Lamoš

Practical part - measurement in EEG and MR laboratory

- Lubomír Vojtíšek
- Petr Kudlička
- Martin Lamoš
- Radek Mareček
- Marek Bartoň
- Martin Gajdoš

Possible issues during preparation of experiments, measurement, preprocessing or statistical analysis

- Marek Bartoň
- Martin Gajdoš
- Martin Lamoš
- Michal Mikl
